

## EMPLOYEE MATCHING FUND PROGRAM

### Digital Wish Administers Funds for Corporations-No Fees

Please have your business contact us! Digital Wish can set up employee matching fund programs for any corporation wanting to support the technology programs at local schools. There are no administrative fees.

*Digital Wish* will also donate an additional 2%-10% in funding, insuring that 102%-110% of the giver's donation will be allocated directly to the school's technology program to help modernize American classrooms. Recipients of a matching grant will first receive one donation from the employee, then a second matching donation from the corporate employer.

### Many Ways to Give

Corporate employees can donate in any of the following ways:

- Make an online donation to their favorite school.
- Purchase items directly from a school's wish list.
- Enter a total sum and distribute it across many schools.

*Targeting local or underserved schools is simply a matter of searching by region or county.*
